Notes that relate to the questions on the Application Form (PSS Form 12)

The numbers correspond to the relevant question numbers on the Application Form.

1. What medical condition causing incapacity to personally exercise the functions of a Police officer is claimed?

Information that may assist you

You can get an HOD pension if you were suffering from a *medical condition* that caused you to be incapable of personally exercising the *functions of a Police officer* and that *medical condition* was caused by an *HOD injury*.

The *Police Force* may have paid or reimbursed your medical or hospital expenses for your injuries on the basis that they were HOD. However, the *Commissioner* is required to determine whether each injury was in fact HOD and whether it caused or contributed to the *medical condition* you are claiming.

Mercer may obtain from the *Police Force* relevant parts of your *HOD injury file*, your personnel and your medical files and your *sick leave records and reports* or any rehabilitation undertaken while you were in the *Police Force*.

What is a “medical condition” and what is an “injury”?

To assist in answering this question, the following example might demonstrate the difference between a *medical condition* that you suffered and an *injury* that you think caused that *medical condition*.

A member of the *Police Force* may be on sick leave with a severely herniated vertebral disc that prevents him or her from sitting or standing for any period of time, or from lifting. That *medical condition* might have resulted from a number of incidents, some of which occurred while the member was undertaking *Police duties* and some not.

For instance, the member may have:

- been involved in a car accident in the course of duties in 1989 in which they suffered whiplash;
- fallen off a motorbike and badly bruised their back while on holidays in 1994;

- tripped and fallen while arresting a suspect in 2000, again injuring their back; and
- in 2005, been involved in another car accident in the course of their *Police duties* in which the member's back was again injured.

The member has not been able to work since the last *injury* and left the *Police Force* shortly after.

In such a case, the *medical condition* causing the member's incapacity to personally exercise the *functions of a Police officer* is the severely herniated vertebral disc.

The *injuries* in this example would be each of those *injuries* in 1989, 1994, 2000 and 2005. If this were your situation, you would identify and give in your answer the information requested for each of these *injuries* as, for example, Injury 1 (1989 injury), Injury 2 (1994 Injury), Injury 3 (2000 Injury) and Injury 4 (2005 Injury).

Part (h) of the question asks you to indicate if you notified the *Commissioner of an injury*. Entitlement to an HOD pension will depend on you demonstrating that you notified the *Commissioner* of your injury:

1. within 6 months of the occurrence of the *injury*, and
2. before you resigned or retired from the *Police Force*.

There is no formal mechanism for notification. *Mercer* will ask for written confirmation from the *Police Force* but it is up to *STC* to determine whether notice of the *injury* was provided within the required timeframe.

The questions in parts (i) and (j) relating to sick leave and your duties after returning to work will help the medical specialist make an assessment about your state of health, whether you were incapable of personally exercising the *functions of a Police officer* at the time you left the *Police Force* and what *injuries* may have contributed to any *medical condition* causing any incapacity.

How to answer this question

You should answer this question to the best of your knowledge. See the example answer to this question on the next page. In providing your answer, you should separately address each different *injury* that you claim caused or contributed to each *medical condition* you are claiming:

- a) describe each medical condition you are claiming;
- b) indicate if you believe the *medical condition* was caused by you being HOD;
- c) if HOD, indicate the date of the injury which caused or contributed to your *medical condition* (approximate if necessary);

If you need help with this form

Contact Customer Service between 8:30 am and 5:30 pm AEST from Mon–Fri on **1300 130 097** or email **enquiries@stc.nsw.gov.au**

- d) describe how the *injury* occurred, including the circumstances you were in at the time and whether or not you were at work;
- e) indicate whether you have attached a medical report for the *injury*;
- f) provide the name and specialty of the medical practitioner who authored the report;
- g) provide the date of the medical report;
- h) indicate whether you notified the *Commissioner* of the *injury*, and, if so, how you made that notification;
- i) if you took sick leave at the time of the *injury*, indicate the period or periods of sick leave taken (approximate if necessary);
- j) indicate whether you returned to work following the *injury*.

If you did return to work after the *injury*, indicate if your duties were restricted in any way because of your *injury* and how they were restricted.

If you believe that your *medical condition* is psychiatric, you should describe as best you can the single incident that you believe caused the *medical condition* or describe the types of incidents that occurred over a period of time that contributed to your medical condition. You may, if you prefer, refer to a medical report that already documents these incidents.

The example on this page sets out how you might answer this question if the example of the severely herniated vertebral disc were your situation, and could be Medical Condition 1. The 1989 injury would be dealt with as Injury 1 for that *medical condition*. You would provide similar information for each of the injuries that occurred in 1994, 2000 and 2005 as Injury 2, Injury 3 and Injury 4, respectively for Medical Condition 1 (additional pages can be attached to the Application Form to cover each *injury* relating to each *medical condition*).

If you claim that more than one medical condition caused or contributed to your incapacity to personally exercise the *functions of a Police officer*, please provide the required information about each one as Medical Condition 2, 3 etc and also provide information about the *injury/ies* causing each *medical condition*.

To have your application for an HOD pension assessed, you will be required to undergo a medical examination with a

To assist your application, you are encouraged to provide a medical report from a relevant medical specialist at your own expense. You are also asked to provide any reports from your treating doctor that are relevant to the assessment and treatment of each *medical condition* you are claiming.

If you do provide a medical report in support of your application, it will need to:

- be provided by a medical specialist who specialises in the area relevant to your *medical condition*;

- address the questions that have been determined are relevant to assessment of an entitlement for an HOD pension (that are available on www.statesuper.nsw.gov.au); and
- have been prepared, preferably, within the last 12 months.

You should be aware that when making a decision about whether you are entitled to an HOD pension, PSAC (as delegate for STC) will place more weight on the opinion of the report of a medical specialist that addresses the issues that are specifically relevant to that entitlement.

Whether you provide a report from a medical specialist or not, you will have the opportunity to see the report of the medical specialist obtained by STC if the conclusions in that report do not support your application or are inconsistent with any medical specialist's report that you do provide. You will have the opportunity to provide an additional report that addresses those inconsistencies.

You may also provide other medical reports that relate to your *injuries* or your *medical condition*, such as Police incident reports.

Statutory declaration

Information that may assist you

There is a lot of information set out in these Notes, including information and background material about many of the questions in the Application Form. You should read these Notes carefully before you complete the Application Form.

If you sign the statutory declaration, *STC* will be justified in assuming that you were aware of and understood all the information in the Notes relevant to your application and that the information you have provided in and attached to the Application Form is stated to the best of your knowledge, belief and information.

In particular, you should be aware that:

A 'material particular' in the context of your application is one that is relevant to the question of whether or not you get an HOD pension. For instance, including an incorrect phone number without checking the Application Form for errors might be false and/or misleading but that information would not normally be 'material' to your application.
