C Eligibility to apply

11. Are you a contributor to the PSS?

This question is to ensure that you are claiming under the correct superannuation scheme. Members of the *Police Force* can only receive benefits under the PSS if they joined the *Police Force* before 1 April 1988. If you answer 'no' to this question, you should **not** be completing the application.

12. Are you applying in this Application Form for a NHOD medical discharge benefit or an HOD medical discharge benefit?

Information that may assist you

If you apply for an HOD medical discharge benefit, you will automatically be considered for a NHOD medical discharge benefit in the event that an HOD benefit does not become payable to you. An explanation of the different benefits is provided in these Notes under the heading "Information about the benefits".

If *PSAC* certifies that you are incapacitated and that your incapacity was caused by a *medical condition*, you will be entitled to a NHOD benefit.

If the *Commissioner* determines that an *injury* caused or contributed to your *medical condition* and that the *injury* was an *HOD injury*, you will be entitled to an HOD pension in lieu of the NHOD benefit.

13. Please provide the following information about any previous applications you have made for any lump sum compensation for an *HOD injury*

Information that may assist you

You may have applied for a lump sum compensation benefit arising from an *HOD injury*. This information will allow **Mercer** to locate all information that might be relevant to your application.

How to answer this question

To the extent that you are able, you are asked to include a description of the particular lump sum benefit applied for and the dates (approximate if necessary).

D Work and Medical Information

14. Are you currently incapable of personally exercising the *functions of a police officer*?

Information that may assist you

A medical discharge benefit is only payable if you are currently incapable of personally exercising the **functions of a police officer** because of a *medical condition*. If you answer 'no' to this question, then you should **not** be applying for a medical discharge.

A *medical condition* can also include an illness or disease, such as a heart condition, diabetes or cancer. Any of these types of *medical conditions* can also cause or contribute to your incapacity and you should include any such *medical condition* in your answer if it applies to you.

How to answer this question

If you believe you are incapable of personally exercising the **functions of a police officer**, you should answer 'yes'. You should then identify each *medical condition* that you believe caused or contributed to your incapacity to personally exercise the **functions of a police officer**.

If you provide a medical report from a specialist who addressed the specific questions referred to in the Note for Q17, the doctor will have identified the *medical condition* that caused or contributed to your incapacity.

15. Please describe the duties you are unable to perform because of any *medical condition* you have identified in your answer to Q14 and explain why you cannot perform those duties.

Information that may assist you

You are asked to describe what duties you are unable to perform because of your *medical conditions*. You should also explain why you can't perform those duties, for example because you may have a bad back which prevents you from lifting heavy boxes or from sitting in one position for too long.

If you have any formal restrictions on your duties, you should mention what they are.

How to answer this question

Please describe the duties you are unable to perform because of any *medical condition* you have identified in your answers to Q14 and explain why you are unable to perform these duties.

16. For each *medical condition* that you identified in your answer to Q14, please provide the following information about the *injuries* causing your *medical condition*, to the best of your knowledge.

Information that may assist you

You can get an HOD pension if you are suffering from a *medical condition* that is preventing you from personally exercising the **functions of a police officer** and that *medical condition* was caused by an *HOD injury*.

The *Police Force* may have paid or reimbursed your medical or hospital expenses for your injuries on the basis that they were **HOD injuries**. However if you are applying for an HOD pension, the *Commissioner* will now be required to determine whether each injury was in fact an **HOD injury** and whether it caused or contributed to the *medical condition* you are claiming.

Mercer may obtain from the *Police Force* relevant parts of your *HOD injury* file, your personnel and your medical files and your sick leave records and reports or any rehabilitation undertaken while you were in the *Police Force*.

What is a "medical condition" and what is an "injury"?

To assist in answering this question, the following example might demonstrate the **difference between a medical condition** that you are now suffering and have identified in

your answer to Q14 (as having caused or contributed to your incapacity), **and an injury** that you think caused that *medical condition*.

A member of the *Police Force* may be on sick leave with a severely herniated vertebral disc that prevents him or her from sitting or standing for any period of time, or from lifting. That condition might have resulted from a number of incidents, some of which occurred while the member was undertaking police duties and some not.

For instance, the member may have:

- been involved in a car accident in the course of duties in 1989 in which they suffered whiplash;
- fallen off a motorbike and badly bruised their back while on holidays in 1994;
- tripped and fallen while arresting a suspect in 2000, again injuring their back; and
- in 2005, been involved in another car accident in the course of their police duties in which the member's back was again injured.

The member has not been able to work since the last *injury*.

In such a case, the **medical condition** preventing the member from personally exercising the **functions of a police officer**, is the severely herniated vertebral disc.

The **injuries** in this example would be each of those injuries in 1989, 1994, 2000 and 2005. If this were your situation, you would identify and give in your answer the information requested for each of these injuries as, for example, Injury 1 (1989 injury), Injury 2 (1994 injury), Injury 3 (2000 injury) and Injury 4 (2005 injury). See the example answer to this question on the next page.

The question in parts (e) and (f) relating to sick leave and your duties after returning to work will help the medical specialist make an assessment about your state of health, your capacity to personally exercise the **functions of a police officer**, and what *injuries* may have contributed to any *medical condition* causing that incapacity.

How to answer this question

You should answer this question to the best of your knowledge. In providing your answer, you should separately address each *medical condition* you identified in your answer to Q14 and:

- a) describe each *injury* (whether or not it was work related) that you believe caused or contributed to that *medical condition*
- b) indicate the date of the *injury* (approximate if necessary)
- c) indicate if you believe the *injury* is an **HOD injury**
- d) describe how the *injury* occurred, including the circumstances you were in at the time and whether or not you were at work
- e) if you took sick leave at the time of the *injury*, indicate the period or periods of sick leave taken (approximate if necessary)
- f) indicate whether you returned to work following the injury. If you did return to work after the *injury* or after any sick leave, indicate whether the duties you undertook on your return were restricted in any way because of your *injury* and how they were restricted.

If you believe that your *medical condition* is psychiatric, you should describe as best you can the single incident that you believe caused the *medical condition*, or describe the types of incidents that occurred over a period of time that contributed to your *medical condition*. You may, if you prefer, refer to a medical report that already documents these incidents.

The example on the next page sets out how you might answer this question if the example of the severely herniated vertebral disc were your situation and could be Medical Condition 1. The 1989 *injury* is dealt with as Injury 1 for that Medical Condition. You would provide similar answers for each of the other injuries that occurred in 1994, 2000 and 2005 as Injury 2, Injury 3 and Injury 4, respectively.

If you claim that more than one *medical condition* is causing or contributing to your incapacity to personally exercise the **functions of a police officer**, please provide this information about the injuries causing each *medical condition*.

E Medical Reports

17. Are you providing any **medical report/s** with your application?

18. Are you aware of any other **records or reports** relevant to your application that you are not including with your application?

Information that may assist you

To have your application for a NHOD medical discharge benefit or an HOD medical discharge benefit assessed, you will be required to undergo a medical examination with a medical specialist nominated by STC. The medical specialist will be one who specialises in the area of medicine relevant to the *medical condition* that you are claiming.

In respect of a psychiatric *medical condition*, the appropriate medical specialist is a psychiatrist (a psychologist is not a medical practitioner).

The medical report will address questions that have been determined as relevant to an entitlement for the appropriate benefit and will be paid for by STC. A copy of the general questions that a medical specialist will be asked to address that are relevant to this application is available from the website at www.statesuper.nsw.gov.au or from Customer Service on 1300 130 097.

To assist your claim, you are encouraged to provide with your application a medical report from a relevant medical specialist at your own expense. You are also asked to provide any reports from your treating doctor that are relevant to the assessment and treatment of each *medical condition* you are claiming.

If you do provide a medical report in support of your application, it will need to:

- be provided by a medical specialist who specialises in the area relevant to your *medical condition*;
- be based on a medical examination of you;
- address the questions that have been determined are relevant to an entitlement for the appropriate benefit (that are available on www.statesuper.nsw.gov.au); and
- have been prepared, preferably, within the last 12 months.

You should be aware that when making a decision about whether you are entitled to a medical discharge benefit, *PSAC* will place more weight on the opinion of the report of a medical specialist that addresses the issues that are specifically relevant to that entitlement.

Whether you provide a report from a medical specialist or not, you will have the opportunity to see the report of the medical specialist obtained by *STC* if the conclusions in that report do not support your application or are inconsistent with any medical specialist's report that you do provide in respect of the decision to be made by *PSAC*. You will have the opportunity to provide an additional report that addresses those inconsistencies.

You may also provide other reports that relate to your injuries or your *medical condition*, such as police incident reports.

How to answer these questions

Question 17 is asking you to identify medical reports that **you are providing** with your application. In particular, Q17 is asking you to list:

- any medical reports that you are providing in support of your application that address the questions that are relevant to an entitlement for a NHOD medical discharge benefit or an HOD medical discharge benefit (that are available on www.statesuper.nsw.gov.au); and
- any existing medical *records or reports* that you are providing with your application that relate to the injuries or your *medical condition* that:
 - were made at the time of occurrence of the injuries;
 - relate to the assessment or treatment of your *medical condition* or injuries;
 - were provided by you in support of any previous application for a PSS benefit.

Question 18 asks you to list any medical *records or reports* that **you are not providing** with your application but you are aware of that may assist your application. You may not have these reports in your possession but be able to indicate where they are located so that **Mercer** can obtain them if they appear to be relevant.

Please also refer to the definition of *records and reports* under **Glossary of Terms** to be clear on what types of reports are required.

19. Have you participated in any rehabilitation or injury management program?

Information that may assist you

You may have undertaken a rehabilitation or injury management program and information about such rehabilitation or program could assist your application. This could be a program undertaken either with the *Police Force* or outside the *Police Force*.

Such program may or may not have related to any of the injuries you identified in your answer to Q16 (that you believe caused or contributed to your *medical condition*) or the *medical conditions* you have identified in your answer to Q14 (that you believe caused your incapacity).

You may also be receiving treatment, such as medication for your *medical condition*.

Rehabilitation might include treatment under an injury management program and include physiotherapy, hydrotherapy and occupational therapy.

How to answer this question

If you answer yes, please describe the nature of the rehabilitation, the period of treatment and the outcome. Please also provide a copy of any report that relates to your participation in the program. You should also indicate if you are taking medication for any *medical condition*.

F Authorised Person

Information that may assist you

If the applicant is capable of completing and signing the form, they should do so, providing they understand its contents. Someone else can complete the form for the applicant, but if someone else **signs** the Application Form **on behalf of the applicant**, that person must complete Part F of the Form.

How to answer this question

If you are not the applicant but are signing the Application Form on behalf of the applicant you will need to provide your personal details as indicated. We also require you to provide documentation demonstrating that you hold the legal authority to act for the applicant.

Please:

- 1) indicate the nature of the authorisation - power of attorney, guardianship order or other authorisation, and
- 2) provide a **certified copy** of the authorisation document with the application.

G Privacy Statement and Declaration

Information that may assist you

It is important that you read the Privacy Statement set out in Part G of the Application Form.

The Application Form **cannot** be accepted by **Mercer** if it is not signed and dated.

There is a lot of information set out in these Notes, including information and background material about many of the questions in the Application Form.

You should read these Notes carefully before you complete the Application Form.

If you sign this declaration, we will be justified in assuming you were aware of and understood all the information when you completed the Form.

In particular, you should be aware that:

- a) the information sought in the Application Form has been requested by **STC** and, accordingly, you are required by law to supply that information,

- b) in collecting the information in the Application Form, **STC** can use that information to determine your entitlement to any PSS benefit,
- c) in providing your consent, **STC** will be able to obtain medical reports you have identified in the Application Form and any medical reports that may be referred to in any other medical report provided to **STC** by you, and
- d) in providing your authority, any doctor or other person who has treated or examined you, is authorised to give to **STC** any medical information or reports that relate to any *medical condition or injuries* you have mentioned in the Application Form.

We are required under the law to inform you that giving false or misleading information is a serious offence. Section s.307A of the *Crimes Act 1900* (NSW) makes it an offence for a person to make a statement in connection with an application for a benefit under a NSW law, where the person knows or is reckless as to whether:

- a) the statement is false or misleading in a material particular, or
- b) omits any matter or thing without which the statement is misleading in a material particular.

Section 307B of that Act makes it an offence for a person to provide information in connection with a NSW law, knowing that the information:

- a) is false or misleading in a material particular, or
- b) omits any matter or thing without which the information is misleading in a material particular.

A 'material particular' is one that is relevant to the question of whether or not you get a medical discharge benefit. For instance, including an incorrect phone number without checking the Application Form for errors might be reckless and false but that information would not normally be 'material' to your application.

How to answer this question

You, as the applicant (or the authorised person, if applicable), need to enter your name, make the declarations, consents and authorisations as indicated and sign and date the form in the space provided.
